

Financial Assistance Policy Summary

Sturdy Memorial Hospital offers low income, uninsured and underinsured patients guidance in applying for financial assistance through either state public programs or hospital programs to help with their bills for emergency and medically necessary services. Assistance for these programs is determined by reviewing, among other items, an individual's household income, assets, family size, expenses, and medical needs. Patients who are eligible for assistance under the Financial Assistance Policy will not be charged more than amounts generally billed to patients who have insurance, for emergency and medically necessary care.

Who is eligible for assistance?

Massachusetts residents and any other patient who presents at the hospital or its remote locations with incomes up to 300% of the Federal Poverty Level (FPL) may be eligible for free or discounted care.

- Patients whose income is 150% or less of the FPL may receive free care
- Patients with an income above 150% and up to 300% of the FPL may be eligible for partial or discounted care
